

WEEKLY UPDATE

December 10, 2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. We are happy to report that, as of today, we have no confirmed cases of COVID-19 in our facility. Since the onset of this virus, we have had 72 residents and 23 staff members test positive for COVID-19. We have had 22 staff members return to work. We have had 53 residents recover. We are continuing to test our staff every Monday and Thursday going forward until county prevalence rates allow for a decrease in frequency of testing.

As previously reported, we have had 1 new positive case of COVID-19 identified during routine testing on November 9th, 2020. After that identification, we tested all staff and residents for COVID-19 twice a week for 14 days. Fortunately, no other positive cases of COVID-19 have been identified in staff or residents since November 9th, 2020.

We are continuing to do Outdoor Visitation. Please contact us at the phone number listed below to make appointments.

As you have probably heard, the CDC recently announced that healthcare workers and long-term care residents should be among the first group of people to receive the vaccine for COVID-19. We are optimistic this will help stop the spread of this virus in our community. Consents for the vaccines are currently available and while we do not have the exact dates that the vaccines will be administered, we will let you know as soon as that information is available. We will be mailing out consents, with return envelopes enclosed, in the coming days. In the meantime, please continue to do your part in limiting the transmission of COVID-19 by wearing masks, washing your hands and keeping a safe distance from others.

We are also working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 864-288-1415.

Sincerely,

A handwritten signature in black ink, appearing to read "K. Broome", with a long horizontal line extending to the right.
